## Close Care Retirement Apartments

The Mary Rose Mews complex is a purpose built retirement development of 46 leasehold apartments set in the delightful mature grounds of the Brendoncare care centre on the outskirts of Alton. 'Close Care' has become a very popular accommodation choice among people in their retirement years because of its unique combination of advantages.

It provides the independence and security associated with home ownership, together with access to many caring and communal facilities, giving peace of mind. These extra facilities are provided from within the same complex by a registered nursing home for residents needing full care. It is owned and run by the Brendoncare Foundation, a registered charity dedicated to improving the quality of life for older people.

Brendoncare Alton caters for residents, whether single or couples, with physical and mental frailty and provides extremely versatile care and accommodation services. Should one or other of you require full-time care, this can be provided within the same complex. This allows a couple with differing care needs to reside close by. The nursing home also offers short respite stays following illness or after discharge from hospital.

**Independence with Care**

Living within the Mary Rose Mews community in your own home you can be totally independent, while enjoying these extra services from the nursing home, all covered within the annual service charge:

- A fund for future maintenance e.g. exterior painting
